## Chairman's statement

As shareholders will be aware, Kennedy Ventures has been an investment company since going through a CVA and reconstruction in May 2012. Its investment policy is to make investments in the energy and resource sectors. We remain focused on those areas and continue to believe that good opportunities exist in these sectors although we are also prepared to look more widely at other areas and we have reviewed a number of such opportunities.

Kennedy has in fact principally sought to do a reverse transaction and, although we have taken a number of transactions to quite a detailed stage, we have not yet identified one which, in the Directors' view, would be attractive in terms of valuation and future financing requirements to shareholders.

It has in fact implemented its investment policy, as announced on 24<sup>th</sup> May 2013, having invested in a portfolio of quoted and unquoted investments in the resources sector. It subsequently disposed of its quoted investments, in view of uncertainties that the Directors felt were developing for small to mid cap stocks in this sector

As announced in our interim results, we made an investment of \$85,000 in Bison Energy Services Ltd, a company that had invested in fracking sand deposits in the USA. It was hoped that this company would come to AIM earlier this year; this did not take place but we understand that negotiations are currently taking place for a private financing round though we cannot at this stage be certain as to its outcome.

The cost of the reconstruction in 2012 was, as I have previously indicated, quite high in relation to the level of funds raised and there were continuing costs associated with historic issues in the financial year under review. There were several subsidiaries no longer trading but which had among other matters past tax issues to deal with and significant costs in this respect were incurred in the first half of the year, including the retention of a full time member of staff for six months. However, these issues have now been resolved and second half running costs were materially lower.

We do however feel that the Company needs to be more fully resourced and we are planning to bring in additional capital in the near future. We are hopeful that this will lead to a value enhancing transaction in the current year.

**Peter Redmond**  
Chairman

## Directors' Report

The Directors present their report and the audited financial statements for the year ended 30 June 2013. The comparative information relates to the 15 month period to 30 June 2012

### DIRECTORS AND THEIR INTERESTS

The current Directors of the Company are:

#### P Redmond – Chairman

Peter Redmond was appointed as a Director on 25 May 2012. He is an experienced corporate financier with some 30 years' experience in corporate finance and venture capital. He has gained particular experience in the field of reverse takeovers and mergers. He became director of corporate finance at Durlacher Limited in 2003, and then joined Merchant House Group PLC where he later became Chief Executive. He has been active in reconstructing a number of AIM companies which have subsequently acquired or established operating businesses. He is currently Chairman of AIM-quoted Leed Resources plc and of Pires Investments plc.

#### C J Yates – Director

Christopher Yates was appointed as a Director on 25 May 2012. He has been a corporate financier for nearly 30 years involved mainly with smaller quoted companies. He qualified as a chartered accountant in 1978 and, following a secondment to the London Stock Exchange, joined the corporate finance department of Laing & Cruickshank (which became Credit Lyonnais Securities). He worked on flotations, fund raisings, take-overs, acquisitions and disposals for small quoted companies including a number of investment companies. In January 2003 he joined Corporate Finance Partners Limited, a small corporate finance advisory firm of which he is still a director. He is director of the AIM-quoted investment company, Pires Investments plc. From 1999 until 2006, he was a member of the Corporate Governance Committee of the Quoted Companies Alliance (and chairman between 2001 and 2006).

#### C L Weinberg – Director

Colin Weinberg was appointed as a Director on 8 April 2013. He was a qualified stockbroker from 1980 to 2006. Subsequently, he worked for a major industrial and resources Group in Ukraine, acting as advisor on mergers and acquisitions and transactions financing. He was previously a non-executive director of a United Kingdom Building Society, and is now a director of the listed company, Associated British Engineering plc.

The Directors who held office during the period and their beneficial interest in the ordinary shares of the Company were as follows:

| Ordinary shares                       | 30 June<br>2013 | 30 June<br>2012 |
|---------------------------------------|-----------------|-----------------|
| P Redmond                             | –               | –               |
| C L Weinberg (appointed 8 April 2013) | 150,000         | –               |
| C J Yates                             | 90,500          | –               |

### MATERIAL INTERESTS

So far as the Board is aware, no Director had any material interest in a contract of significance (other than service contracts) with the Company during the period.

## Directors' Report continued

### PRINCIPAL ACTIVITY AND BUSINESS REVIEW

The principal activity of the Company is as an investment company with the investing policy adopted at a general meeting of the Company on 25 May 2012 and re-adopted at the AGM held on 8 November 2012. The Company's Investing Policy is in summary to invest principally, but not exclusively in the resources and energy sectors. The Company will focus on projects located in Asia but will also consider investments in other geographical regions. The Company may be either an active investor and acquire control of a single company or it may acquire non-controlling shareholdings.

The review of the period is contained within the Chairman's statement.

The results for the Company are set out in the Income Statement on page 13.

The Directors recommend that there is no dividend payment for the year ended 30 June 2013 (2012: nil).

The Chairman's statement provides a balanced and comprehensive analysis of the development and performance and results of the Company during the period and the balance sheet position of the Company at the end of that period in the context of the Company's current activities.

### PRINCIPAL RISKS AND UNCERTAINTIES

The Company's business is to identify, make, manage and realise investments in accordance with the Company's stated investing policy. The Directors consider the following risks to be the most material or significant for the management of the business. These issues do not purport to be a complete list or explanation of all the risk factors facing the Company. In particular the Company's performance may be affected by changes in the market and/or economic conditions and changes in legal, regulatory or tax requirement legislation. Additional risks and uncertainties not presently known by the Company or that the Company currently deems immaterial may also impact the business.

- **Unable to invest**  
The Directors may be unable to identify investments which are consistent with the Company's investment policy which are available at a price which the Directors consider suitable, which would limit the potential for the Company's value to grow
- **Unavailability of finance**  
The Directors may identify suitable investments at what they believe to be a suitable price but which may require more funds than are available to the Company and the Company may then be unable to raise further funds at all or on terms which the Directors consider acceptable
- **Investment risk**  
Once an investment has been made, the underlying business invested in may not perform as the Directors had expected and this may impair or eliminate the value of the Company's investment
- **Realisation risk**  
Once an investment has been made, it may not prove possible to realise the investment at the time the Directors intend or only to realise it at a value which damages the Company's value

The Board of Directors monitors these risks and the Company's performance on a regular basis, considering investment proposals, the performance of investments made and opportunities for divestment as appropriate as well as considering the actual performance of the Company against budgets.

## Directors' Report continued

### FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities will expose it to a small number of financial risks including credit risk, interest rate risk and investment risk. It is the Company's policy that no speculative trading in financial instruments shall be undertaken.

- **Credit risk**  
The Company's principal financial assets are investments made and bank balances and cash and the Board consider there is limited credit risk.
- **Interest rate risk**  
The Company's interest rate risk on current borrowings is limited as the borrowings consist of a term loan which is subject to a fixed rate facility fee.
- **Investment risk**  
The Company is expected to make investments whose value may fluctuate.

### COMPANY VOLUNTARY ARRANGEMENT

On 25 May 2012, the Company's creditors and members approved a company voluntary arrangement ("CVA"), which was completed on 25 July 2013

### SUPPLIER PAYMENT POLICY

The Company's policy is to settle debts with its creditors on a timely basis, taking into consideration the terms and conditions offered by each supplier. At 30 June 2013, the number of creditor days outstanding for the Company was 30 days (2012: 30 days).

### GOING CONCERN

In determining the appropriate basis of preparation of the financial statements, the Directors have considered whether the Company can continue in operational existence for the foreseeable future. The Company made a loss of £139,000 in the period and although the Company is in a net current asset position of £172,000, the available for sale investments have restrictions on their liquidity and £150,000 of loan notes are due for repayment on 31 October 2014. The Directors plan on raising sufficient additional funds during the period to repay the loan notes and to provide for working capital requirements, and they have prepared a cash flow forecast through to 31 December 2014 which includes the assumption that the additional funds will be raised, and that no significant investment activity is undertaken unless sufficient funding is in place to undertake such investment activity.

On this basis, the Directors have a reasonable expectation that the Company has adequate resources to continue operating for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the Company's financial statements.

### CAPITAL STRUCTURE

Details of the issued share capital are shown in note 15. The Company has one class of ordinary shares which carries no right to fixed income. Each share carries the right to one vote on a poll at general meetings of the Company.

## Directors' Report continued

There are no specific restrictions on the size of a holding nor on the transfer of shares, which are both governed by the general provisions of the Articles of Association and prevailing legislation. The Directors are not aware of any agreements between holders of the Company's shares that may result in restrictions on the transfer of securities or on voting rights.

No person has any special rights of control over the Company's share capital and all issued shares are fully paid.

With regard to the appointment and replacement of directors, the Company is governed by its Articles of Association, the Companies Acts and related legislation. The Articles themselves may be amended by special resolution of the shareholders.

### SUBSTANTIAL SHAREHOLDINGS

The Board has been notified of the following disclosures in respect of shareholders with an interest in 3 per cent. or more of the issued share capital of the Company at 20 December 2013:

|                                     | Number of<br>ordinary shares | %age   |
|-------------------------------------|------------------------------|--------|
| Gledhow Investments plc             | 5,000,000                    | 18.45% |
| Client of Redmayne Nominees Limited | 4,015,000                    | 14.82% |
| Deutsche Bank (Suisse) SA           | 1,375,000                    | 5.07%  |

### CLOSE COMPANY STATUS

In the opinion of the Directors, the Company is not a close company within the provisions of section 414 of the Income and Corporation Taxes Act 1988.

### KEY PERFORMANCE INDICATORS

The Company considers investment value (and thus net asset value) as its principal key performance indicator. This is reported in the financial statements, monitored quarterly and reviewed at Board meetings.

### EMPLOYEES

The Directors do not intend in the short term to have a significant number of employees. To the extent that the Company becomes an employer, it is the Directors intention that it will be an equal opportunities employer.

### CORPORATE GOVERNANCE STATEMENT

The Company, being traded on AIM, is not required to comply with the requirements of the Combined Code (June 2008) but the Board is committed to high standards of corporate governance. The Board is accountable to the shareholders for good governance.

At the current time, the Company has three Directors and no full time executive employees. All functions are therefore undertaken by the Board as a whole including the consideration of relations with the auditors, the appointment of further directors and the setting of remuneration levels.

The Board is committed to implementing corporate governance structures in line with best practice for a company of its size and complexity as its business and activities develop.

## **Directors' Report** continued

The Directors acknowledge that they have overall responsibility for the Company's system of internal control and for reviewing its effectiveness. Such a system is designed to manage rather than eliminate the risk of failure to achieve business objectives and even the most effective system can provide only reasonable, and not absolute, assurance with respect to the preparation of financial information and the safeguarding of assets. The close involvement of the Directors in all decisions and actions undertaken by the Company is intended to ensure that the risks to the Company are minimised.

### **DONATIONS**

During the year the Company made no charitable donations (2012: £1,750). No political donations were made during the year (2012: £nil).

### **AUDITOR**

Each of the persons who is a director at the date of approval of this report confirms that:

- 1) So far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- 2) The Director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Welbeck Associates, who were appointed as auditor following the resignation of Deloitte LLP, have expressed their willingness to continue in office and a resolution for their re-appointment will be proposed at the forthcoming Annual General Meeting.

By order of the Board

**P Redmond**  
**Director**

20 December 2013

## Report of the Board on Remuneration

### UNAUDITED INFORMATION

As stated in the Corporate Governance Statement in the Directors' Report, the Company is not required to comply with the requirements of the Combined Code.

This report is made in accordance with the AIM rules.

### Remuneration committee

In view of the size of the Company's Board and the Company's activities, remuneration matters are dealt with by the Board as a whole.

### Remuneration policy

The remuneration of the Directors is set by the Board as a whole and is reviewed annually. They are remunerated by a fixed fee for their duties as Directors, but it is anticipated that additional payments may be made where as a result of the Company's activities the time to be spent by the Directors on the affairs of the Company are greater than envisaged by the fixed fee.

The Board will review over coming months the most appropriate way of aligning the efforts of the Directors most closely with the achievement of success by the Company and this may involve an appropriate form of share incentive arrangement.

The Company does not provide a pension scheme for employees or Directors and does not contribute to plans established by them.

### Directors' warrants and share options and Long term incentive plans

Previous Directors of the Company had been granted share options and had participated in long term incentive plans which granted share options to them. All such participations were terminated without cost to the Company upon their resignations.

### Directors' service contracts

The Directors have letters of appointment which run for a one-year term, commencing from their date of appointment and will continue thereafter unless terminated in accordance with the terms of the letter.

## Report of the Board on Remuneration continued

| S D Beart                 | –                        | –                 | –              | –             | –  | 209  |
| P L S Wilson              | –                        | –                 | –              | –             | –  | 177  |
| J Reynolds                | –                        | –                 | –              | –             | –  | 244  |
| I R Mann                  | –                        | –                 | –              | –             | –  | 50   |
| E J McAlpine              | –                        | –                 | –              | –             | –  | 8  |
|                           | –                        | –                 | –              | 33            | 33   | 692  |

Current year remuneration for the directors represents their full entitlement for the year, although they have not been paid any fees since March 2013 and do not intend to draw any further remuneration until the Company is more significantly resourced.

In addition to the above, payments in respect of termination of employment of £16,000, £14,000, £30,000 and £4,000 were paid to S D Beart, P L S Wilson, J Reynolds and I R Mann respectively in 2012.

No share related options were issued or exercised in the period and all in existence at the start of the period lapsed during the period.

#### Directors' pension entitlements

The previous executive Directors were members of individual money purchase schemes. The contributions made by the Company to these were as follows:

| Previous Directors | Year ended<br>30 June 2013<br>£'000 | Period ended<br>30 June 2012<br>£'000 |
|--------------------|-------------------------------------|---------------------------------------|
| S D Beart          | –                                   | 34                                    |
| P L S Wilson       | –                                   | 25                                    |
| J Reynolds         | –                                   | 6                                     |
|                    | –                                   | 65                                    |

No contributions were made by the Company in respect of other Directors.

Approved and signed on behalf of the Board.

**P Redmond**  
Chairman

## Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial period. Under that law the Directors are required to prepare the Company financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and have also chosen to prepare the parent company financial statements under IFRSs as adopted by the EU. Under company law the Directors must not approve the accounts unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, International Accounting Standard 1 requires that directors:

- properly select and apply accounting policies;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- make an assessment of the Company's ability to continue as a going concern.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

### Responsibility statement

We confirm that to the best of our knowledge:

- the financial statements, prepared in accordance with International Financial Reporting Standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company; and
- the management report, which is incorporated into the Directors' Report, includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that it faces.

By order of the Board

**P Redmond**  
Chairman

20 December 2013

## **Independent Auditor's Report to the members of Kennedy Ventures plc**

We have audited the financial statements of Kennedy Ventures plc for the year ended 30 June 2013 which comprise the Income Statement, the Statement of Changes in Equity, the Balance Sheet, the Cash Flow Statement, and the related notes 1 to 19. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union and, as regards the parent company financial statements, as applied in accordance with the provisions of the Companies Act 2006.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditor**

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2013 and of the company's loss for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

### **Emphasis of Matter – Going Concern**

In forming our opinion on the financial statements, which is not modified, we have considered the adequacy of the disclosure made in note 2 to the financial statements concerning the Company's ability to continue as a going concern. The conditions explained in note 2 to the financial statements indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The financial statements do not include the adjustments that would result if the Company were unable to continue as a going concern.

## Independent Auditor's Report to the members of Kennedy Ventures plc (continued)

### Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- the company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

| <b>Discontinued operations:</b>                     |      |  |  |
| Loss for the period from discontinued operations    | 9    | –                                      | (13,270)   |
| <b>LOSS FOR THE YEAR</b>                            |      | <b>(139)</b>                           | <b>(13,270)</b>  |
| <b>Basic and diluted loss per share (pence)</b>     |      |  |  |
| Continuing operations                               | 8    | (0.5)                                  | –  |
| Discontinued operations                             |      | –                                      | (244.4)  |
| <b>Total operations</b>                             |      | <b>(0.5)</b>                           | <b>(244.4)</b>   |

**Note:**

The financial statements for the 15 months to 30 June 2012 were prepared on a consolidated basis, so the comparatives have been restated to reflect the results of the Company only.

There are no recognised gains or losses in either period other than the loss for that period and therefore no statement of comprehensive income is presented.

## Notes to the financial statements for the year ended 30 June 2013

### 1 GENERAL INFORMATION

Kennedy Ventures plc is a Company incorporated in the United Kingdom under the Companies Act. The address of the registered office is given on the back cover. The nature of the Company's operations and its principal activities are set out in the Chairman's Statement and Directors' report.

These financial statements are presented in pounds sterling because that is the currency of the primary economic environment in which the Company operates. There are no foreign operations.

### 2 ACCOUNTING POLICIES

#### Going concern

In determining the appropriate basis of preparation of the financial statements, the Directors have considered whether the Company can continue in operational existence for the foreseeable future. The Company made a loss of £139,000 in the period and although the Company is in a net current asset position of £172,000, the available for sale investments have restrictions on their liquidity and £150,000 of loan notes are due for repayment on 31 October 2014. The Directors plan on raising sufficient additional funds during the period to repay the loan notes and to provide for working capital requirements, and they have prepared a cash flow forecast through to 31 December 2014 which includes the assumption that the additional funds will be raised, and that no significant investment activity is undertaken unless sufficient funding is in place to undertake such investment activity.

On this basis, the Directors have a reasonable expectation that the Company has adequate resources to continue operating for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the Company's financial statements.

#### Basis of preparation

The financial statements are prepared in accordance with applicable IFRS including standards and interpretations issued by the International Accounting Standards Board as adopted by the EU.

The financial statements have been prepared on the basis of historical cost, except for the revaluation of financial instruments. Cost is based on the fair values of the consideration given in exchange for assets.

In the application of IFRS management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgments made by management in the application of IFRS that have significant effects on the financial statements and estimates with a significant risk of material adjustments in the next year are disclosed, where applicable, in the relevant notes to the financial statements.

## Notes to the financial statements continued

### 2 ACCOUNTING POLICIES continued

#### Statement of compliance

The financial statements comply with International Financial Reporting Standards as adopted by the European Union. At the date of authorisation of these financial statements, the following Standards and Interpretations affecting the Company, which have not been applied in these financial statements, were in issue, but not yet effective (and in some cases had not been adopted by the EU):

|                  |   | Effective for<br>accounting periods<br>beginning on or after: |
|------------------|---|---|
| IFRS 7 (amended) | Disclosures - Transfers of Financial Assets         | 1 January 2013  |
| IFRS 9           | Financial Instruments                               | 1 January 2013  |
| IFRS 11          | Joint Arrangements                                  | 1 January 2014  |
| IFRS 12          | Disclosure of Interests in Other Entities           | 1 January 2013  |
| IFRS 13          | Fair Value Measurement                              | 1 January 2013  |
| IAS 1 (amended)  | Presentation of Items of Other Comprehensive Income | 1 July 2012   |
| IAS 12 (amended) | Deferred Tax: Recovery of Underlying Assets         | 1 January 2013  |
| IAS 19 (amended) | Employee Benefits                                   | 1 January 2013  |
| IAS 27 (amended) | Separate Financial Statements                       | 1 January 2014  |
| IAS 28 (amended) | Investments in Associates and Joint Ventures        | 1 January 2014  |

The Directors anticipate that the adoption of the above Standards and Interpretations in future periods will have little or no impact on the financial statements of the Company when the relevant Standards come into effect for future reporting periods.

#### Profit or loss from discontinued operations

A discontinued operation is a component of the Company that either has been disposed of, or is classified as held for sale. The profit or loss from discontinued operations, including prior year components of profit or loss, is presented in a single amount in the income statement. This amount, which comprises the post-tax profit or loss of discontinued operations and the post-tax gain or loss resulting from the measurement and disposal of assets classified as held for sale, is further analysed in note 9. The disclosures for discontinued operations in the prior year relate to all operations that had been discontinued by 30 June 2012.

## Notes to the financial statements continued

### 2 ACCOUNTING POLICIES continued

#### **Taxation**

The tax currently payable is based on taxable profit or loss for the period. Taxable profit or loss differs from net profit or loss as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) or other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying value of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted at the balance sheet date. Deferred tax is charged or credited in the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

#### **Foreign currencies**

The functional and presentational currency of the Company is pounds sterling. Transactions in foreign currencies are translated at the exchange rate ruling at the date of each transaction. Foreign currency monetary assets and liabilities are retranslated using the exchange rates at the statement of financial position date. Gains and losses arising from changes in exchange rates after the date of the transaction are recognised in profit and loss. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated at the exchange rate at the date of the original transaction.

#### **Impairment**

Assets that have an indefinite useful life are not subject to amortisation but are reviewed for impairment annually and where there are indications that the carrying value may not be recoverable. An impairment loss is recognised for the amount by which the carrying value exceeds the recoverable amount.

## Notes to the financial statements continued

### 2 ACCOUNTING POLICIES continued

#### **Financial instruments**

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

The Company ceases to recognise a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

The Company ceases to recognise a financial liability when the Company's obligations are discharged, cancelled or they expire.

Financial instruments are classified as cash and cash equivalents, trade and other receivables, trade creditors, borrowings (including obligations under finance leases) and other payables (including social security and current tax liabilities).

Non-derivative financial assets are categorised as "loans and receivables" and non-derivative financial liabilities are categorised as "other financial liabilities".

#### **Available for sale investments**

Investments are recognised and derecognised on a trade date where a purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned, and are initially measured at cost, including transaction costs.

All investments are designated upon initial recognition as held at fair value through profit or loss. Fair value is defined as the price at which an orderly transaction would take place between market participants at the reporting date and is therefore an estimate and as such requires the use of judgement. Where possible fair value is based upon observable market prices, such as listed equity markets or reported merger and acquisition transactions. Alternative bases of valuation may include contracted proceeds or best estimate thereof, implied valuation from further investment and long-term cash flows discounted at a rate which is tested against market data. Changes in the fair value of investments held at fair value through profit or loss and gains and losses on disposal are recognised in the consolidated statement of comprehensive income as "Net gains on investments". Impairment losses recognised in the income statement for equity investments classified as available-for-sale are not subsequently reversed through the income statement.

The Company determines the fair value of its Investments based on the following hierarchy:

LEVEL 1 - Where financial instruments are traded in active financial markets, fair value is determined by reference to the appropriate quoted market price at the reporting date. Active markets are those in which transactions occur in significant frequency and volume to provide pricing information on an on-going basis.

LEVEL 2 - If there is no active market, fair value is established using valuation techniques, including discounted cash flow models. The inputs to these models are taken from observable market data including recent arm's length market transactions, and comparisons to the current fair value of similar instruments; but where this is not feasible, inputs such as liquidity risk, credit risk and volatility are used.

LEVEL 3 - Valuations in this level are those with inputs that are not based on observable market data.

## Notes to the financial statements continued

### 2 ACCOUNTING POLICIES continued

#### ***Loans and receivables***

Loans and receivables, as categorised above, are measured at amortised cost using the effective interest method less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

#### ***Trade and other receivables***

Trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the balance sheet date, which are classified as non-current assets and are measured at amortised cost less an allowance for any uncollectible amounts. The net of these balances are classified as "trade and other receivables" in the balance sheet.

Trade and other receivables are assessed for indicators of impairment at each balance sheet date and are impaired where there is objective evidence that the recovery of the receivable is in doubt.

Objective evidence of impairment could include significant financial difficulty of the customer, default on payment terms or the customer going into liquidation.

The carrying amount of trade and other receivables is reduced through the use of an allowance account. When a trade or other receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the income statement.

#### ***Cash and cash equivalents***

Cash and cash equivalents include cash at bank and in hand, deposits at call with banks, other short-term highly liquid investments with original maturity at acquisition of three months or less that are readily convertible to cash, net of bank overdrafts. For the purpose of the cash flow statement, cash and cash equivalents consist of the definition outlined above.

#### ***Financial liabilities***

All non-derivative financial liabilities are classified as other financial liabilities and are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Other financial liabilities consist of borrowings and trade and other payables.

Financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

#### ***Other financial liabilities***

Other financial liabilities, as categorised above, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis. Other financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

#### ***Equity instruments***

Equity instruments consist of the Company's ordinary share capital and are recorded at the proceeds received, net of direct issue costs.

**Notes to the financial statements** continued**3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS**

The preparation of financial statements in conformity with the Company's accounting policies as disclosed in Note 2 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The carrying value of assets is determined based on their fair value as supported by a management valuation less costs to sell. This estimate and assumption can present a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial period.

**4 BUSINESS AND GEOGRAPHICAL REPORTING**

The Company's operations are solely in the United Kingdom. Following the disposal of the Company's trading operations it has no trading activities and so no segmental analysis of operations is included.

| Share based payments charge not deductible   | –                                   | –                                     |
| Expenses not deductible for tax purposes   | 6                                   | 869                                   |
| Effect of the change in tax rate from 28% to 26.5%   | –                                   | (145)                                 |
| Losses carried forward   | 27                                  | 2,737                                 |
| Adjustment in respect of prior period  | –                                   | 56                                    |
| <b>Current tax charge based on loss for the period</b>   | –                                   | –                                     |

**Notes to the financial statements** continued**7 TAXATION** continued**Deferred tax**

Deferred tax assets and liabilities are measured at tax rates that are enacted or substantively enacted at the balance sheet date. Accordingly the reduction to 24% has been taken into account when measuring the deferred tax assets and liabilities at 30 June 2013.

Further changes to the rate are proposed to reduce the rate by one percent per annum to 23% by 1 April 2014. However these changes were not substantively enacted at the balance sheet date (nor have they yet been substantively enacted) and as such are not included in the deferred tax figures at 30 June 2013.

No deferred tax asset is recognised in respect of losses brought forward at a tax written down value of £2.0m (2012: £1.8m). The asset is not recognised as there is no certainty that sufficient taxable profits will arise within the next 12 months against which to utilise the losses. An asset would be recognised once it was reasonably certain that sufficient taxable profits would arise within Company.

**8 LOSS PER SHARE**

The calculation of basic and diluted loss per share is based on the following data

|  | <b>Year ended<br/>30 June<br/>2013<br/>£'000</b> | <b>Period ended<br/>30 June<br/>2012<br/>£'000</b> |
|--|--|--|

| Level 3 - Unquoted investments  | 77            | –             |
|                                 | 77            | –             |

The table above sets out the fair value measurements using the IFRS 7 fair value hierarchy. Categorisation within the hierarchy has been determined on the basis of the lowest level of input that is significant to the fair value measurement of the relevant asset as follows:

Level 1 - valued using quoted prices in active markets for identical assets.

Level 2 - valued by reference to valuation techniques using observable inputs other than quoted prices included within Level 1.

Level 3 - valued by reference to valuation techniques using inputs that are not based on observable market data.

The valuation techniques used by the company are explained in the accounting policy note, "Investments held for trading".

**11 TRADE AND OTHER RECEIVABLES**

|               | 2013<br>£'000 | 2012<br>£'000 |
|---------------|---------------|---------------|
| Other debtors | 19            | –             |
| Prepayments   | 6             | 34            |
|               | 25            | 34            |

**12 CASH AND CASH EQUIVALENTS**

|                           | 2013<br>£'000 | 2012<br>£'000 |
|---------------------------|---------------|---------------|
| Cash and cash equivalents | 206           | 414           |

**Credit risk**

The Company's principal financial assets are bank balances and cash, and trade receivables, which represent the Company's maximum exposure to credit risk in relation to financial assets. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

|                                    | <b>2013</b>  | <b>2012</b>  |
|------------------------------------|--------------|--------------|
|                                    | <b>£'000</b> | <b>£'000</b> |
| Trade creditors                    | 8            | 148          |
| Amounts owed to group undertakings | –            | 2            |
| Social security and other taxes    | –            | 12           |
| Other creditors                    | 22           | –            |
| Accruals                           | 29           | 48           |
|                                    | <b>59</b>    | <b>210</b>   |

The Directors consider that the carrying amount of trade payables approximates to their fair value at the balance sheet date.

**14 LOAN NOTES**

On 10 May 2013 the Company issued £150,000 secured loan notes repayable on 31 October 2014, on which there is a facility fee at the rate of £2,000 per quarter, payable on redemption.

**15 SHARE CAPITAL**

|   | <b>2013</b>  | <b>2012</b>  |
|---|--------------|--------------|
|   | <b>£'000</b> | <b>£'000</b> |
| <b>Issued and fully paid</b>                |              |              |
| 2,709,802,191 Ordinary Shares of 0.01p each | –            | 271          |
| 27,098,000 Ordinary Shares of 1p each       | 271          | –            |
|   | <b>271</b>   | <b>271</b>   |

A resolution was passed at the annual general meeting on 8 November 2012 in effect to consolidate every 100 ordinary issued shares of 0.01p into one ordinary share of 1p

**Warrants**

On 25 May 2012 and in association with the CVA and Placing, the Company granted to Peterhouse Corporate Finance Limited by way of a deed a warrant to subscribe shares representing 3% of the Company's issued ordinary share capital from time to time exercisable at 2 pence per share at any time up to 20 March 2015.
