Kennedy Ventures plc

Interim results for the six months ended 31 December 2014

Kennedy Ventures plc ("Kennedy Ventures" or "the Company") is pleased to announce its interim results for the six months ended 31 December 2014.

Highlights

- A successful acquisition of Namibian tantalite mine (the "Mine") with completion successfully occurring post balance sheet date.
- The Mine complies with the US conflict mineral regulations.
- Demand for tantalum has been driven by the increased use of electronic devices.
- Mine expected to move into production on schedule and within four months.
- Further tantalite asset acquisitions will be sought post commencement of production at the Mine.

Giles Clarke, Chairman of Kennedy Ventures said:

"The successful 75% acquisition of African Tantalum (Pty) Limited ("Aftan") is the first step in building Kennedy Ventures into a producer of high grade tantalum. I am very excited by the dynamics of the tantalum market, particularly for producers which comply with the US conflict mineral regulations. The demand for tantalum is set to grow with the demand for electronic devices we so rely on today."

Chairman's statement

Kennedy Ventures, through its acquisition of Aftan, has taken a step closer to becoming a material producer of tantalum. Under the terms of the transaction the Company has acquired 75% of Aftan for a total consideration of R12m (£0.66m), R4m (£0.22m) of which were satisfied through the issuance of 4,523,113 Ordinary Shares in Kennedy Ventures at a price of 4.9p per share and the remainder through a loan of R8m (£0.44m).

The demand for tantalum is driven by the electronics and technology industries, where tantalum capacitors are used in nearly all electronic equipment and mobile devices. Furthermore tantalum is used to produce super alloys that can be used to manufacture high temperature cutting tools. Significantly, our mine is certified, allowing us to supply companies around the world which are required to comply with the US Securities and Exchange Commission regulations. These regulations should increase the demand for our product and we therefore believe that once the mine is in production we will be able to generate significant cash-flow.

Following the successful completion of the acquisition in January 2015, we aim to have the mine in production in the next four months. As we are working towards bringing a formerly operating facility back into production; we expect capex requirements to be low.

Once the mine is in production and Kennedy Ventures is generating cash flow, we plan to acquire further tantalite mines which are compliant with the US conflict mineral regulations.

Financials

The Company recorded a loss before tax of £57,000 and had cash balances of £350,000 at the end of the period. Kennedy Ventures continues to operate on a low-cost basis and incurred administrative expenses of £57,000 during the period. The Company does not plan to pay a dividend for the six months to 31 December 2014.

Directors

During the period Mr. Christopher Yates resigned as a Non-Executive Director of the Company. I would like to thank Christopher for his contribution to the Company and we wish him well for the future.

Now the initial mine has been secured, Kennedy Ventures intends, in the near future to appoint a new CEO to the Board to drive forward the operations and strategy. A further announcement will be made once this is finalised.

Outlook

When production commences Kennedy Ventures will be a producer of what is a highly valuable commodity in a stable market. We are confident that the investment we have made in Namibia will be the start of a strong period of growth for the Company and we look forward to updating shareholders as to future developments.

Giles Clarke

NOTES TO THE UNAUDITED FINANCIAL STATEMENTS

for the period ended 31 December 2014

1 GENERAL INFORMATION AND ACCOUNTING POLICIES

These interim consolidated financial statements are for the six months ended 31 December 2014. The interim financial report, which has not been audited or reviewed, has been prepared in accordance with International Financial Reporting Standards (IFRS) adopted for use in the European Union.

The information for the period ended 30 June 2014 does not constitute statutory accounts as defined in section 434 of the Companies Act 2006. A copy of the statutory accounts for that year has been delivered to the Registrar of Companies. The auditors reported on those accounts: their report was unqualified.

The annual financial statements are prepared in accordance with applicable IFRSs as adopted by the European Union. The condensed set of financial statements included in this half-yearly financial report has been prepared in accordance with International Accounting Standard 34 "Interim Financial Reporting", as adopted by the European Union.

The same accounting policies, presentation and methods of computation are followed in the condensed set of financial statements as applied in the Group's latest audited financial statements.

Going concern

The Directors are satisfied that the Group has sufficient resources to continue in operation for the foreseeable future, a period of not less than 12 months from the date of this report. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

2 BUSINESS, GEOGRAPHICAL AND SEGMENTAL REPORTING

The Group's operations were only in the United Kingdom and relate solely to the Company's operations as an investing company seeking investments in businesses including those with the potential to be provided with management services by the Company.

3 TAX

Corporation tax charge for the six month period has been estimated at £nil (six months ended 31 December 2013 and year ended 30 June 2014: £nil). No deferred tax asset has been recognised in relation to the losses in the period.
